

Labor Division

June 2025

The 2025 Fall meetings of the Labor Division of the National Safety Council (NSC) will soon be here. As much as it hurts to think about summer will soon slip by and September will soon be here, and the Fall meetings will run from September 14-18 with two days of access to the NSC Expo included with registration.

Make plans now to attend and gain practical resources and safety knowledge to share with your Local. Registration is [open](#). Join us in Denver for Division committee meetings, fantastic speakers, and plenty of opportunities to connect with others who share your safety commitment. The location for the Labor Division meetings is the Hyatt Regency Denver at the Colorado Convention Center. The reception will be held on Wednesday, Sept. 17th and raffle proceeds will go to the [Pinnacol Foundation](#), providing educational opportunities for the children of injured workers.

Let's think about the unprecedented two-day access to the NSC Expo. The Expo is simply the most significant and likely the largest concentration of safety and health expertise and products anywhere in the world. As a registrant with the Labor Division there will be two full days of access to this treasure trove of information and product and advice on how to preserve life and health in all of our workplaces.

What else can the Expo do? The Labor Division has a gold-plated record of connecting people of similar industries and with similar questions and inquiries about safety and health. Imagine, now, extending that reach to safety and health professionals and people of knowledge in what looks, for all intents and purposes, like an infinite number of valuable resources and friends and acquaintances for us to yet meet.

Safety and Health and its critical importance to every worker is not up for debate. No one sets about hurting themselves or others in their workplaces and imagine thousands of people in one location, the Expo, and hundreds in the closer company of the Labor Division meetings all with that same commitment and the commitment to make workplaces safer and healthier for everyone.

One thin slice of the very detailed menu form which we can pick is the Troubled Worker Committee of the Labor Division. A shared vision of helping overcome such things as addiction, controlling psychosocial hazards and advocating in the most certain words as possible the "art of self-care" such that we may care for ourselves and our co-workers.

Workplaces rapidly change and evolve. As workers, safety and health professionals, worker advocates and knowledgeable people we need to keep pace. The Labor Division meetings and educational sessions along with the access to the Expo will get each of placed well to get out ahead of issues that may hurt, make ill or possibly kill workers.

As chairperson of the Labor Division, it is a privilege to work with an executive committee that is second to none and delegates and members of the division that can proudly say that each day their efforts prevent injury, illness and death in the workplace. The Labor Division is the place to be and the fall meeting in Denver, Colorado are already being prepared for.

Join us and amplify the leadership you already demonstrate.

In Solidarity and Kindest Regards

Bob Stone, Chairperson, NSC Labor Division

2025 Labor Division Fall Meeting
Hyatt Regency Denver at Colorado Convention Center
Denver, Colorado
Sept. 14 - 18, 2025
